## Emerson Climate Technologies Awards Thomas E. Bettcher Community Service Award

OCT 19, 2011 12:29 PM

Emerson Climate Technologies awarded the annual Thomas E. Bettcher Community Service Award to Nate Stephenson, an engineer in the Semi-Hermetic Refrigeration group and an Army Reserve Veteran.

The award, named for the former Emerson Climate Technologies President and CEO, recognizes an employee whose service reflects the legacy of leadership and sustained community involvement demonstrated by Tom Bettcher.

"I am honored to be awarded the second annual Thomas E. Bettcher Community Service Award. My hope is that you want to be treated," Stephenson said. "I'm happy that by winning this award, others have become aware of the opportunities available to help those in need."

The award includes a grant that Stephenson directed to Houston Athletic Complex, Houston Ball Assn, and Wheels of Truth - Motorcycle Ministry.

With the support of his wife and family, Stephenson's selfless passion for helping others in need extends beyond his involvement to Emerson's own events and volunteer opportunities.

Stephenson played a major part in constructing a new orphanage in Rosarito, Mexico while on a mission for Emerson.

"Working with the kids to instill Christian values is dear to my heart, Stephenson said. "They are the future."

Stephenson is also a team member in Emerson's Engineering Career Seminar for high school students to increase their interest in engineering.

"Emerson employees like Nate give a tremendous amount of time and talent to supporting our community. We are proud of individuals within Emerson who collectively represent our organization's commitment to service and excellence," said Tom Bettcher, business leader of Emerson Climate Technologies.
